

# Holistic Management with Kelly Sidoryk

February 15-17 and 22-24, 2019

St. Paul, AB

For over 35 years farmers and ranchers in Alberta have used Holistic Management to improve land, grow nutritious food, gain control of their finances and improve their quality of life.

**Holistic Management is a values-based decision making framework that integrates all aspects of planning for sustainable social, economic and environmental considerations.** Each and every operation is unique and by using Holistic Management farmers and ranchers can achieve improvements in their land and mitigate risk.

## Module 1

## Module 3

Principles of holistic financial planning

Definition of wealth

Enterprise analysis

Plan a profit

Develop your operations annual financial plan

Create a learning (support) group

There is no blanket solution or one size fits all approach to management. This course allows you to consider your own goals and what would work best for you and help you to get to where you want to go. The course is laid out into three modules over the two, three day sessions. The Cost of the Holistic Management Course is \$1,500.00 per farm unit.
